Currently Learning: Bootstrap, Laravel, MySQL, Docker, AWS / Cloud, Figma

Key Skills: React.js, TypeScript, Node.js, REST API, Git, Firebase, PostgreSQL, Supabase, React Native, AI Integration, Full-Stack Development, Mobile Development, Cloud Services

WORK HISTORY

Freelance Full-Stack Developer | Oct 2025 - Apr 2026

Self-Employed | Pulupandan, Negros Occidental, Philippines

- Designed and delivered a complete water billing management system (Pulupandan Water District) as a paid solo developer, serving approximately 2,000 households across the province.
- Reduced the billing cycle from 1-2 full staff days to a streamlined digital process by automating invoicing, receipt generation, and billing cycle management.
- Engineered three separate web applications: a mobile-responsive Reader App, an Admin Dashboard, and a Cashier Dashboard with role-based access control across 3 user types.
- Gathered requirements from 5-6 staff members and managed all phases: database architecture, UI/UX design, API development, and deployment.
- Received client intent to purchase the system for continued operational use upon project completion.

- Awarded Best in Capstone university-wide at Central Philippine State University — recognized as the top capstone project across the entire school.

PROJECTS

NORTH - AI Skill Matcher and Career Path Tool | Mar 2026 - Jun 2026

Personal Project | [north-wana.vercel.app](#) | Web Application

- Architected and deployed an AI-powered web app that maps user skills and surfaces personalized income paths and career directions.
- Integrated LLM API decision logic to generate context-aware, personalized recommendations for each user.

After Midnight - Thought Release App | Aug 2024 - Jun 2026

Personal Project | Mobile Application

- Built a mobile app with time-based access control that unlocks exclusively between 12:00 AM and 4:00 AM for late-night journaling and thought release.
- Implemented a distraction-free writing experience optimized for low-light, late-night use.

Tindadone - Point of Sale System | Feb 2026 - Present

Personal Project | Mobile Application

- Engineering a full-featured POS mobile app designed for any retail store type - food, sari-sari, hardware, machine parts, and more.
- Implementing stock management, credit tracking per customer, and expense monitoring in one unified platform.

LEADERSHIP AND INVOLVEMENT

Supreme Student Government (SSG) Member | 3 Years

- Represented student interests in governance discussions and campus-wide initiatives for three consecutive years.

Floor Leader | 2nd and 3rd Year

- Elected by peers to coordinate floor-level activities and serve as liaison between students and faculty.

SSG Volunteer | 1st Year

- Contributed to university-wide events and community outreach programs under the Supreme Student Government.

ACHIEVEMENTS AND AWARDS

- Magna Cum Laude - Graduated with high academic distinction from Central Philippine State University, 2026
- Consistent Dean's Lister throughout the entire four-year degree program
- Best in Capstone — Awarded university-wide Best in Capstone at CPSU, recognized as the top capstone project across the entire school
- Delivered a production-ready freelance billing system serving 2,000+ households - client expressed intent to purchase for continued operational use
